Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,7,8,14,15, are rejected under 35 U.S.C. 102(b) as being anticipated by USP 4,423,531 (Wall).

Figures 1 and 2 illustrate the embodiment which reads on the claims. Figure 1 shows a hairbrush having a panel (22) comprising bristle mounts which are shown in the figure as the small circles on the panel (22) and support legs are intermediate sections of the rows which span the bristle mounts. There are 4 support legs. The panel is engaged with a head mount (32) in a sliding relationship. Figure 3 shows the structural features which is considered to read on claim 8. With regards to claim 15 the mounts in rows (68c) are considered to be structurally equivalent to the claimed hubs. Figures 4 and 5 show the features of claim 7.

Allowable Subject Matter

Claims 2-6,9-11 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 12 and 13 are allowed.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
